You can find more about me here: https://parda.me

EXPERIENCE

Senior Developer

EY GDS

Nov 2023 - Present, Warsaw

- Awarded for leading an internal project of an application that streamlined the monthly work of several dozen managers and regular employees.
- Ran the department tech newsletter.
- Helped create a competence matrix for a frontend developer.
- Led the development work, which consisted of updating React and a large update of the UI library.

Javascript Developer

STX Next

April 2022 - Nov 2023, Olsztyn

- Presented team progress during Sprint Reviews meetings and actively participated in project planning meetings with clients.
- Increased the employment of several people from our company at the client's site, thanks to successfully delivering a project from initial workshops with the client to a functional Minimum Viable Product (MVP).
- Speeded up loading screens of internal web applications by a few seconds via refactor.
- Planned frontend architecture multiple times, selecting appropriate tools and libraries for new projects.
- Created a MVP Chrome extension project before estimated time.
- Delivered tasks on time, so I could focus on refactoring and paying off technical debt.
- Worked on fin-tech and greenfield projects.
- Worked on the maintenance and development of a mobile application.

My frontend stack

Next.js 15
React.js 19
Typescript / Javascript / Node.js
Cypress / Vitest / JEST
Nx - Monorepos

My backend stack

express.js
PostgreSQL
Prisma
REST

I also worked with:

GTP models, Docker, Angular, Astro, Svelte, SvelteKit, various CSS frameworks, various state management (Redux, Zustand etc.), GraphQL, Vite, RxJS, Playwright, MobX, Nest.js, TypeORM, Figma, Scrum, Jira, Github, Gitlab

Languages

Polish (native)
English B2

- Implemented integration with payment systems.
- Provided assistance and guidance to other team members.
- Conducted technical consultations with clients.
- Collaborated with clients from the USA, Germany, UK, and Australia on a daily basis.
- Participated in additional activities such as AI hackathons (manage to won!), Tech Talks, and Meetups.

Frontend Developer

Ermlab Software

Jul 2020 - Mar 2022, Olsztyn

- Worked on developing and maintaining frontend projects in React and Angular technologies.
- Created complex multistep forms.
- Created web applications with facebook authorization/ authentication.
- Created data collection application for AI scientific research.
- Co-created Google Chrome extention
- Technically supervising learning meetings and leading several of them.

CERTIFICATES

- Microsoft Certified: Azure Fundamentals (AZ-900)
- AI Devs 2 - Connect GPT-4 with application and automation logic
- Modern Frontend - Next.js, React, GraphQL and TypeScript
